

What is Persona Employment Pathways

Employment Pathways

Is support for people with a learning disability to

- find a job
- start **volunteering**
- give support to people

Volunteering

This is when you work for free to help a person or an organisation

LD Day Service

This service for people we support in our learning disability day services.

We will work with people by

- asking them about their skills and goals
- looking at the support or extra training they may need during their job or volunteering
- boosting their confidence and skills

Our job coaches will

- find people the right job
- give people before and during their role
- help people develop their skills
- meet people for **reviews** to check everything is going well

A **review** is when we talk about something that has happened.

The job coach will

- work with **employers** to find jobs for people
- help employers understand what people with a learning disability need to do well in work

Employer means someone who pays people to do a job.

The job coach will go into work with the person to help people learn the job.

This is called **job shadowing**
